

GEO CIVIL LABORATORIES' MOBILE LABS

On-site testing solutions

**At Geo Civil Laboratories,
we bring the lab to you.**

Our custom-built mobile laboratories are designed and manufactured in Australia to deliver fast, reliable, and professional testing services directly on-site - wherever your project takes you.

Whether you're working on a large-scale civil development, a remote infrastructure project, or a time-sensitive construction job, our mobile labs are the perfect solution. Fully equipped with state-of-the-art equipment and finished to meet strict laboratory standards, our mobile units provide the same accuracy, quality, and compliance as a permanent facility without the wait.

Specialist mobile testing labs

Our mobile labs specialize in the testing of soils, concrete sampling, and aggregates, ensuring critical quality assurance for your materials and peace of mind for your project team. We pride ourselves on being flexible to the demands of your project and responsive to your specific needs, offering a tailored approach that aligns with your timelines and requirements. By eliminating the need to transport samples off-site, we help you cut costs, reduce delays, and accelerate decision-making, all while maintaining the highest level of testing integrity.

We proudly service projects across Queensland, delivering our expertise wherever it's needed. From remote outback roads to bustling urban developments, we're ready to support your success with flexible, responsive, and professional mobile lab solutions.

At Geo Civil Laboratories, quality and integrity are always front of mind. Our experienced team is committed to providing accurate results, timely reporting, and expert support throughout your project lifecycle.

Trust the lab that moves with your project.

Location

Based in Bundaberg, we have the ability to scale our services to your project requirements in any location. We have previous experience across all ranges of construction sites and projects across Queensland.

Equipment and facilities

At Geo Civil Laboratories, our state-of-the-art equipment and facilities ensure accurate and precise testing results. We employ industry best practices and adhere to stringent quality control measures throughout the testing process, ensuring reliability and consistency.

Customer focus

We prioritize customer satisfaction and strive to exceed our clients' expectations. Our team works closely with clients to understand their specific testing requirements and provide tailored solutions for the project. We offer fast turnaround times, transparent communication, and comprehensive reporting to ensure our clients have the information they need to make informed decisions.

Construction materials testing professionals you can trust.

Team

Our team consists of highly trained professionals with extensive experience in the construction materials testing field. We prioritize ongoing training and development to ensure our team is well-equipped to handle complex projects and provide exceptional service. Our technicians are committed to providing efficient and accurate testing services while maintaining the highest levels of professionalism and integrity. Geo Civil Laboratories embraces diversity and inclusivity. We value the unique perspectives and contributions that come from a diverse team, and we are committed to promoting cultural awareness and respect in all aspects of our work.

Safety

Safety underpins all that we do. We follow a safety first approach for ourselves, colleagues and clients.

Conclusion

Geo Civil Laboratories is committed to delivering reliable and accurate testing services to the construction industry. With our emphasis on integrity, experienced team, and dedication to quality, we are well equipped to handle a wide range of construction materials testing projects.
